If took me a long time to build up of how to make use of this Index card system. Even had a couple suggestions on how to use it. And try I find it hard to actually copy it into their system. I even got my own copy and stuff I can print from the Index card (like the one above). But I found in the printing, the printer guy doesn't have any dimensions for the cards. But I'll suck it over. If I'm not going to cry I'll probably just suck myself. Suddenly, I started thinking...
