IASSIST2013 conference
Köln, 29 May 2013

UK Data Service

Panel topic

Panellists

Jochen Schirrwagen, Bielefeld University, Germany; Confederation of Open Access Repositories (COAR) & OpenAIRE+

- International perspective from open access repositories

Robin Rice, EDINA, DataShare and Data Library, University of Edinburgh, Scotland

- Providing local support for data management planning and data deposit

Ingrid Dillo, Data Archiving and Networked Services (DANS), Netherlands

- Supporting data curation through the front office and back office model

Jared Lyle, ICPSR, USA

- ICPSR's experiences working with data producers and IRs, including successes and challenges

Laurence Horton & Alexia Katsanidou, GESIS - Leibniz Institute for the Social Sciences, Germany

- Doctor, my data! Data archive support for large research projects

Louise Corti, UK Data Archive, UK

- UK Data Service (UKDS) institutional partnership project

Discussion

- What support can data centres and data services offer to institutions and institutional repositories ?
- What support do institutions and their researchers want from data centres and data services ?
- Examples of successful collaboration ?
- What are the challenges ahead ?
