

IASSIST at 50: *Where Have We Been & Where Are We Going*

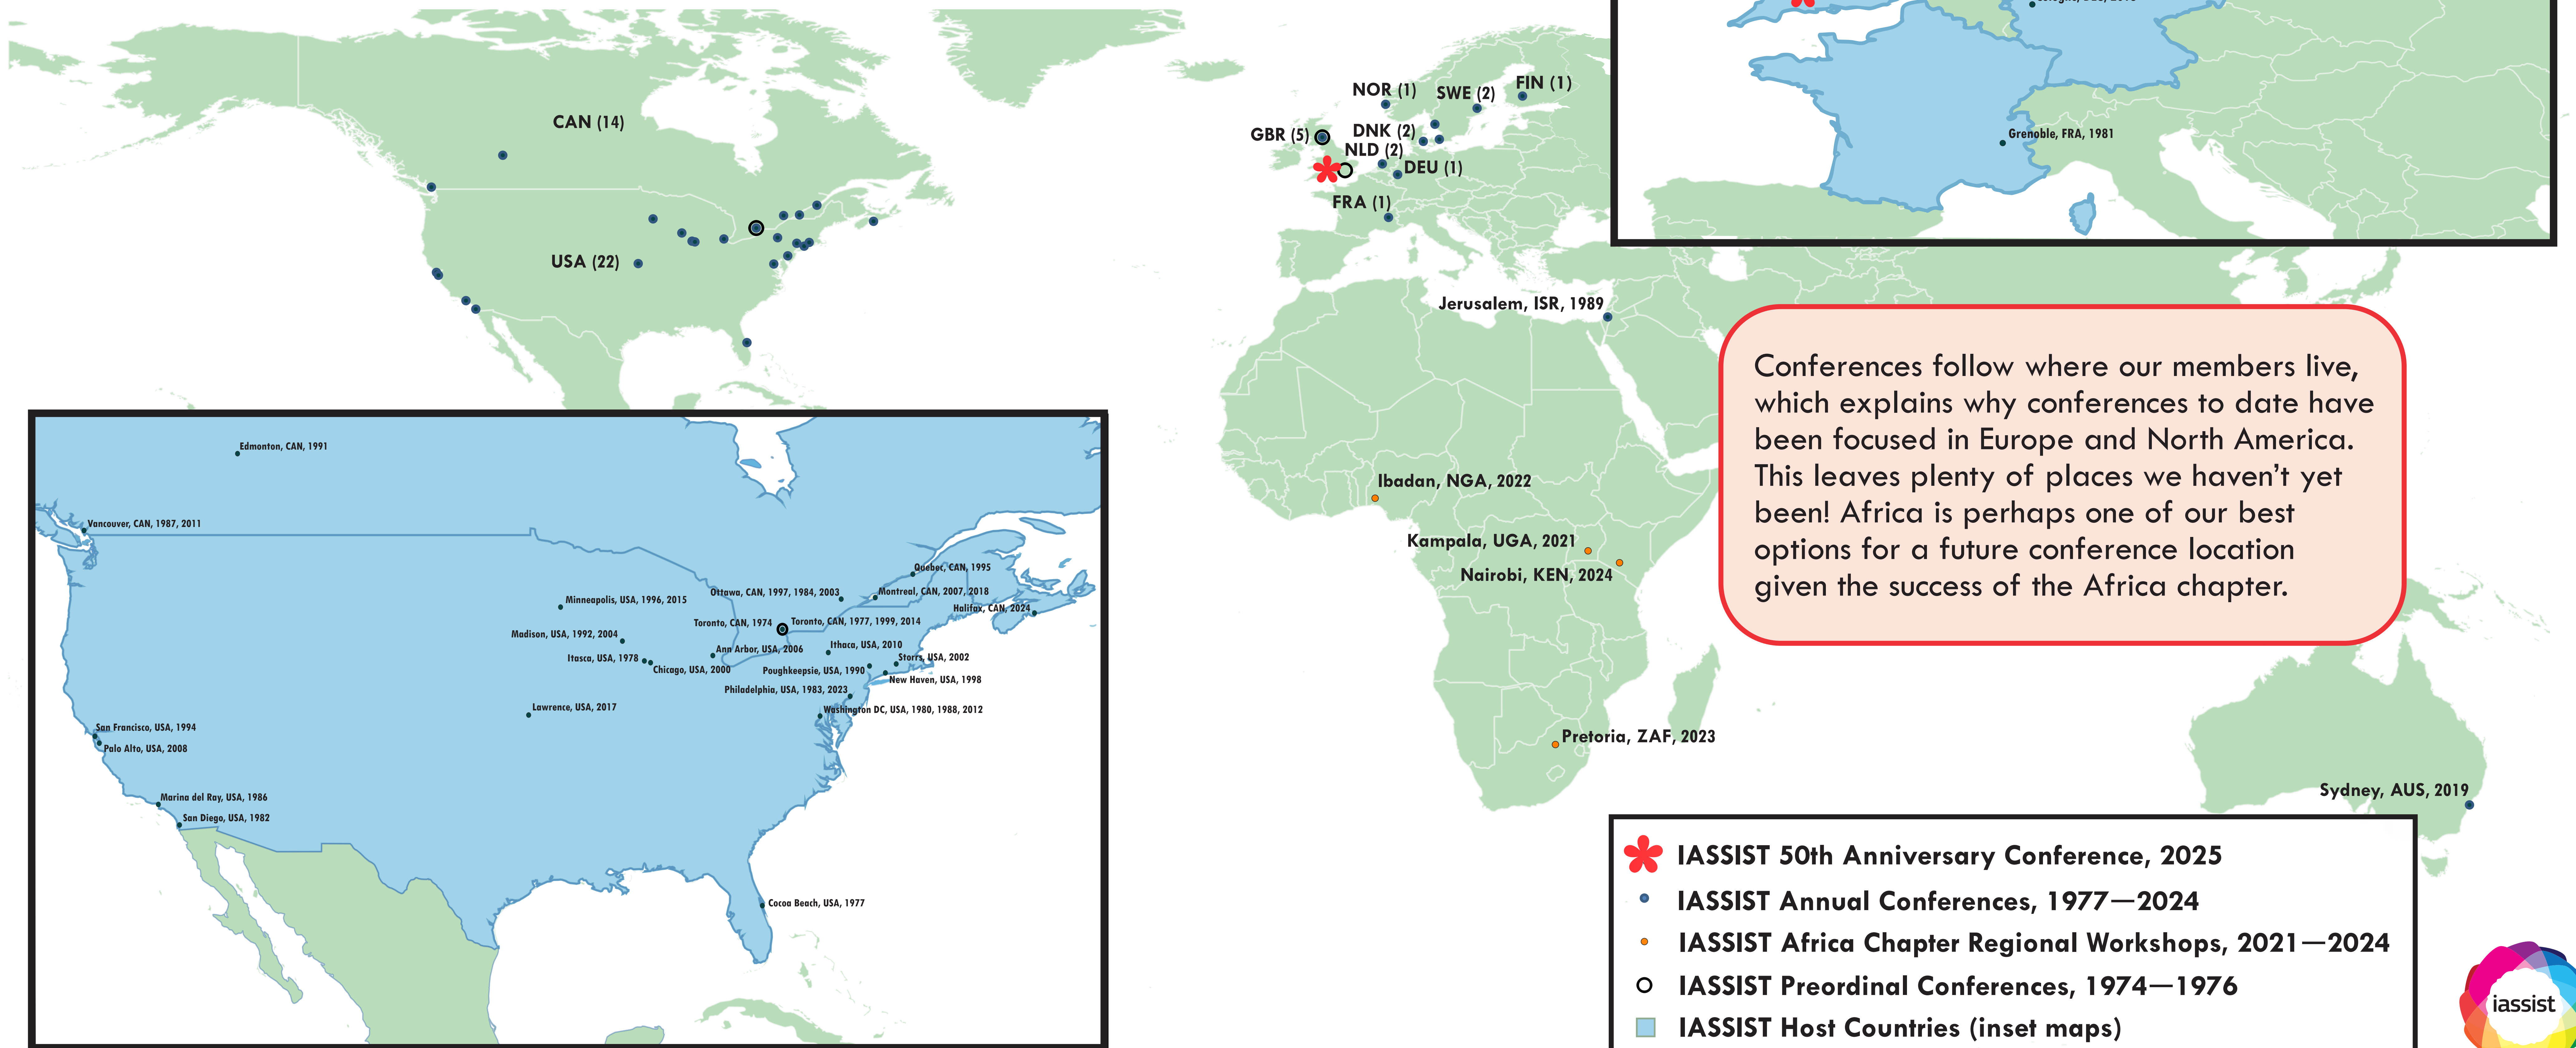

iassidata.org/conferences/archive

Did you know?

All we need to bring the IASSIST conference to a new location is a group of volunteers to propose hosting in their city!

If you are interested in proposing a future IASSIST conference or have questions, please contact Bobray Bordelon, IASSIST President, at bordelon@princeton.edu.

***Consider areas of the world where the conference hasn't been yet.
Do you know data professionals in any of those areas? Please invite them to participate in IASSIST!***

This poster was created by the Organizational Archive Action Group. Special thanks to Wei Yin for creating these maps and Thom Pinho for graphic design assistance.
