Metadata management and survey planning tool based on DDI-Lifecycle

Akira MOTEGI (Institute of Social Science, The University of Tokyo)

EDO is a metadata managing software project launched at Social Science Japan Data Archive (SSJDA), Institute of Social Science, the University of Tokyo.

Feature:
Implementation of DDI 3.1 and DDI 2.5
System Requirement:
OS: Windows XP / Windows Vista / Windows 7
License:
Apache License v2.0
・Source code is available at: https://github.com/Easy-DDI-Organizer/EDO
・Installer can be downloaded at: http://ssjda.iss.u-tokyo.ac.jp/international/ddi/edo/ (Japanese)

Further developments:
・Implementation of the DDI 3.2 (and further updated ones)
・Compatibility with other metadata management softwares such as Nesstar Publisher

The earlier development of EDO is due greatly to the contribution by Keiichi Sato (Senshu University) and Yuki Yonekura (Iwate Medical University).
The project is funded by Joint usage/research center project of the Ministry of Education, Culture, Sports, Science and Technology, Japan.
The cooperation of Mr. Takeshi Iwanami, the president of epoch Ltd and Mr. Masaru Tsuda is greatly appreciated.
